# Books

CiNii Books is a service to provide information on books (and journals) which are held by university libraries in Japan, and stored on NACSIS-CAT. A wide range of books including classic books, foreign books, CDs, DVDs, as well as recent books, can be searched.

# http://ci.nii.ac.jp/books/

You can refer to approximately 10 million book data which are held by about 1,200 university libraries in Japan. CiNii Books can indicate which libraries in Japan hold your target book, and also display a list of books which a specific library or libraries hold.

### CiNii is an essential academic information platform for scholars and students.

CiNii has two functions, one is "CiNii Articles" and the other is "CiNii Books".

**CiNii Articles includes approximately** 16 million articles published in Japan, and users can refer to links to the PDF full texts in CiNii or in other services.

**CiNii Books includes approximately** 10 million book data, such as books, journals, classic books, and foreign books, which are held by more than 1,200 university libraries in Japan. You can search which libraries hold their target books.

### http://ci.nii.ac.jp/

#### An extensive article bibliography database

You can easily search your target article among vast amounts of information of more than 16 million articles, such as academic society journals and

4 million

CiNii displays the number of references included in an article, or the number of articles which cite the article. The links of the citation relation are also available (Registered user only).

#### Convenient function (in common with CiNii Books)

The search results can be downloaded in the TSV format, or directly export into different types of reference be obtained by RSS feed.

Books can be searched for

libraries in a certain area or by a certain library.

You can specify and search for books held by

by specifying a library

Content

necessary

Powerful search functions You can search articles by entering keywords, such as a title, an author name, or the name of the journal in which the target article is included. Articles can also be searched using the detailed search function, searched by author

#### From bibliography to full texts

Full texts of the selected articles are available to general users in the PDF format. There are charged and free articles. With "Institutional Fixed-Price Service" contract, users can display many of charged articles. CiNii includes links to the contents of other sites. If the target article cannot be found, you can check on CiNii Books which library holds the target article.

#### **Cited references**

management tools, such as RefWorks, EndNote (including EndNote Web), and Mendeley. The search results can also

#### Listing and refining holding libraries

CiNii Books can display a list of libraries which hold your target book. You can refine the list of libraries by area or ILL (Inter Library Loan) availability. You can also confirm the details at the book information page of each library via **OPAC** button.

# 

#### Vast amounts of holdings

You can search approximately 10 million book and author data (totaled over 120 million books) which are held at about 1,200 university libraries in Japan. The data has been stored on the NACSIS-CAT (online cataloging system in Japan) which is managed by the National Institute of Informatics.

### Extensive search functions

Books and journals can be found using the simple and easy "Simple search" function or "Advanced search" function to search by author names, publisher names, notes, or classifications. Additionally, you can search for author information, description and table of contents.

There are four different user categories of CiNii Articles, in accordance with the institution which the user belongs to or whether the user has obtained an ID.

Depending on the user categories, the available functions and the payment structures slightly differ Consider the advantages of each use categories, and select the most appropriate use method for you.

		General	Registered users				
	Service	No ID obtained	Individual ID	Institutional			
User Category		No use registration	Personal ID for the monthly volume charge service which is cheaper than PPV	Service for corporate bodies such as uni- versities, libraries, and private companies (IP authentication)	Personal IDs for mem- bers * <sup>2</sup> who belong to an "institution with a fixed-price contracts"		
Annual registration fee		Free	<b>2,160</b> yen	General user From <b>162,000</b> yen Academicuser from <b>54,000</b> yen	User who belongs to an "institution with a fixed-price contracts": Free		
arch sults	Detailed information and abstract	0	0	0	0		
	Citation information	—	0	0	0		
itents	Open Access	0	0	0	0		
	Subscription	PPV*1 (From 540 yen)	Monthly volume charge (From 64 yen)	0	0		
	Paid	PPV*1 (From 540 yen)	Monthly volume charge (From 64 yen)	Monthly volume charge* <sup>2</sup> (From 64 yen)	Monthly volume charge*2 (From 64 yen)		
	ess from outside the institution	* <sup>3</sup> O					

\*1 PPV (Pay Per View) can be purchased per article (payment by credit card).

\*2 To view the paid articles on the Institutional Fixed-price Service, obtaining a Site License Individual ID is

\*3 Access by VPN, Shibboleth (GakuNin) is also available.

#### **Institutional Fixed-Price Service**

If you sign up with the Institutional Fixed-Price Service, you can use all of the CiNii functions and refer to the "Subscription" full texts of the academic society journals. Options to configure your institution's original setting are also available.

#### Link setting (Only for institutions with Fixed-price contracts)

If you sign up with the Institutional Fixed-price Service, your institution's unique link by OpenURL can be displayed, and the indication priority can be given to your libraries at the list of holding libraries at CiNii Books.
